Summary

A tech enthusiast pursuing a BSc. CSIT with a strong interest in technology and development. Proficient in Flutter, HTML, CSS, and JavaScript, with a growing understanding of their frameworks. Passionate about enhancing skills through practice, exploring new technologies, and working towards industry standards. Seeking opportunities to learn and contribute in dynamic environments.

Projects

Meme App

Flutter

Developed the frontend of a meme-sharing app using Flutter. Implemented features for users to upload and share memes, as well as react to them with likes and other interactions, creating an engaging and dynamic user experience.

Weather App

Flutter

Developed a weather app using Flutter, allowing users to view real-time weather information by entering a city name

Education

Tribhuvan University

2022-Present

Bachelor's degree in Computer Science and Information Technology
