Summery

Motivated and enthusiastic Flutter developer with a solid foundation in UI development, specializing in building reusable components and creating engaging mobile experiences. Eager to expand skills in state management and backend integration. A fast learner with a strong desire to grow professionally in mobile app development and contribute effectively in team environments.

Education

SOCH College of IT   **2022-Present**

Bachelor's degree in Computer Science and
Information Technology (BSc. CSIT)

Gorkha Secondary School   **2019-2021**

Major: Science (Related course: Physics, Chemistry, Mathematics, Computer)

Professional Experience

Websoft technology Nepal

Intern – Flutter

Pokhara, Nepal | Dec-2024 to Feb-2025

- Learned Flutter framework and applied skills to create reusable UI components.
- Worked on conceptual views (not implemented fully) with a focus on learning more about Provider state management.
- Gained foundational experience in mobile UI design and team collaboration.
- Assisted in UI prototyping and development under mentorship.

Personal Projects

Meme App

- Developed the frontend of a meme-sharing app using Flutter.
- Enabled users to upload memes, like posts, and engage with a dynamic UI.
- Focused on smooth and visually appealing user experience.

Weather App

- Created a weather application that shows real-time weather data based on city input.
- Utilized APIs to fetch and display updated weather information.
- Designed clean UI elements for clear readability and ease of use.
